

AAEES STUDENT CHAPTER AT FLORIDA INTERNATIONAL UNIVERSITY

OUR VISION

Leadership and excellence in sustainable environmental engineering and science.

OUR MISSION

Sustainable environmental engineering will guide the members to make impactful contributions to the profession locally and globally through the collaboration of academy, industry, and government.

RECOGNITION

The American Academy of Environmental Engineers and Scientists® recognizes and assists environmental engineering or environmental science student associations. The Academy will recognize environmental engineering and environmental science student chapters that:

- Are organized to benefit environmental engineering and environmental science undergraduate and/or graduate students and related engineering and scientific disciplines as determined by the student chapter;
- Are officially recognized (chartered) by the university where the student chapter is located;
- Are operated with the guidance of a faculty advisor; and
- Agree to fulfill the responsibilities prescribed by the Academy.

BENEFIT

The Academy will provide student chapters which it recognizes with the following benefits:

- Assignment of an BCEE, BCEEM, or BCES to provide practical assistance to a student chapter;
- A digital subscription to the Environmental Engineer and Scientist for each student member (paper copies are \$10/year)
- A digital copy of the Environmental Engineering and Science Resource Guidebook for each student member (this is a good job hunting tool);
- A certificate for the chapter commemorating the Academy's recognition; and
- Assistance from the Academy in building a program of support for the student chapter that includes career guidance, materials and information about current topics in environmental engineering and science, presentations on campus, field trips to working sites, and other benefits and activities that are developed in response to student interest.

Join Us!

For Membership, Please Contact:

President of AAEES Student Chapter at FIU:

SABINA GONZALEZ

Phone: (305)-609-6556

Email: sgonz444@fiu.edu

Faculty advisor:

WALTER Z. TANG,
PH.D., P.E., ASSOCIATE PROFESSOR

Department of Civil & Environmental
Engineering

Florida International University
Miami, Florida 33199
