

2023 ASCE Southeast Student Symposium

The ASCE FIU Student chapter attended this year's Southeast Student Symposium in Jacksonville, Florida. All of our members were proud to have represented FIU by putting our academic concepts to the ultimate test against 19 universities across Florida, Georgia, and Puerto Rico. Students that participated came back with satisfaction for being able to compete, network with professionals and other students, as well as memories of a great experience

OVERALL : 3rd Place

Achievements

All of the hard work and commitment throughout the year was deemed successful, bringing home 13 awards in a variety of competitions. We competed in every single competition for the first time, and for the first time in 15 years we placed 3rd overall.

FIU Students Thoughts About the Symposium

"When I first started, I was not confident. Seeing the success of the previous conference director made me think I would not be able to live up or exceed those standards. However, our members proved everything wrong. No matter the time, early mornings or late nights, there was always a team working hard on the project. From beginning to end, everyone showed dedication and commitment. All of the hard work paid off as ASCE FIU achieved 3rd place overall."

-Kevin Roman, ASCE FIU Symposium director

"The best way to connect with people. Attending the 2023 Southeast Student Symposium gave me the chance to meet fellow students with the same interests as me, as well as the opportunity to network with professionals in my field. Great experience that I would recommend to anyone."

-Carlos Alvarez, ASCE FIU Student Member

"I was a part of 5 competitions, canoe, bridge, captain for cornhole, professional paper, and surveying. I attended every competition I could to support the teams, and stepped up for different competitions when they needed me to, and I enjoyed every part of it. Can't wait to do it again next year"

-Vivian Himmler, ASCE FIU Student Member

GO PANTHERS!!

The ASCE FIU chapter is proud and thankful to all the members that attended, worked hard, and competed at the symposium to bring the ASCE FIU chapter to the next level.
